Congressman E. W. Carmack, of the Memphis district, has been re-nominated.

Lieut. Hobson has \$10,000 life insurance and the companies may yet have it to pay. He is in very bad hands.

The lake fish dealers have formed a trust after negotiations extending over two years. They are not expected to scale prices any.

The Vermont Republicans have nominated E. C. Smith for Governor and H. C. Bates for Lieutenant-Governor.

The Turks ended their war between the 19th of April and the 15th of May, but then the Turks had no Congressional election ahead of them.

A son of Senator Harris, who was only 15 years old last February, has enlisted in the volunteer army at Washington and has gone to the front. He claims to be the youngest recruit.

The Louisville Times is authority for the statement that Col. T. J. Smith is to be assigned to command the brigade at Chickamauga, of which his regiment is a part.

Two months seems to be a favorite period with the administration. It took two months to declare war after the Maine was blown up and two months to move the army after war was declared.

We have been unable to find out how many of the new government bonds were taken by members of the Kentucky press. The matter will be investigated at the coming meeting at Cincinnati.

Capt. Ed. Porter Thompson was elected custodian of public buildings by the judges of the court of appeals this week. Capt. Thompson was superintendent of public instruction for eight years.

Col. Bryan's regiment is said to be very short of rations in camp at Omaha. The Colonel is roughing it with the boys, but he may be in a position to fare better in a few years.

The war is now more than two months old and the fighting has not yet begun. Those who expected Cuba to be occupied and the Spanish driven out within thirty days did not know how slowly some war boards can make haste.

The Spanish claim to have 45,000 soldiers in and around Santiago where the land fighting will begin. To meet this force there are 16,000 Americans and 5,000 Cubans and 8,000 more Americans will be on the way by the end of the week.

Aguinaldo, the Philippine leader, has Gen. Augusti's wife and children in captivity and has notified him that the slaughter of Philippine prisoners must stop. Gen. Augusti has acted upon the suggestion.

Democrats should not forget to attend the precinct conventions at 2 o'clock Saturday and send delegates to the county conventions. The conventions will be called together by the precinct committees and organized by the election of Chairmen and Secretaries. There is but one candidate, Hon. H. D. Allen, of Union, who will receive the instructed votes and be nominated by acclamation at Henderson next week.

According to the Louisville Commercial, which assumes to speak by the card, the Louisville & Nashville railroad company will on July 1st restore to its employees one half of the ten per cent. cut in wages made five years ago. The company holds out a hope of a further restoration next year. The cut has amounted, it has been estimated, to about \$1,000,000 a year and a five per cent increase will benefit the employees to the extent of \$500,000 a year.

No wonder Judge failed; those Spanish dailies are so funny.

Smarting under the criticism of the delay policy of the Administration, the officials at Washington have prepared an apology to the public for the failure to end the war in sixty days. Discussing the fact that two months have elapsed since the war began, the article says:

"The end of that period finds nearly 16,000 United States troops lying off Santiago prepared to land; it finds cable communication established between the Government at Washington and the advance guard of the expedition in Cuba, and it finds Cuban territory in the possession of United States marines, backed by a squadron, and nearly all of the commercial ports of Cuba blockaded. This is all apart from Dewey's great victory at Manila and from the splendid results achieved in organizing several armies now in the camps. Therefore the officers of the Administration feel that they have a right to look back with pride over what has been accomplished in the short space of two months, working in a large part with raw material in both the army and the navy."

But the fact remains that no attempt to invade Cuba was made until the fighting season was over and the rainy season had set in, although the troops were camped at Tampa for many weeks ready and anxious to move.

"NASHVILLE '98."

International Endeavor Convention July 6-11.

"Nashville '98" is a cry that is now being heard in every country on the globe. It means that the 17th International Christian Endeavor Convention meets in Nashville this year. This fact is well known locally; however, few people realize how great a gathering this will be, indeed they will not appreciate its magnitude till the convention has passed into history.

Never was there such a time to visit Nashville. Never was there as many strangers within the city as there will be during the sessions of the convention: never in the history of the south, was there a gathering religious, political, social or otherwise that brought as many well known men and so cosmopolitan a concourse of people, as will this convention. But it is safe to say that no previous religious meeting that the world has ever seen, has been planned with a spiritual meeting and with so definite a purpose as has characterized the preparations for this convention. Hence we say that there was never so opportune a time for visiting Nashville, the '98 Convention City.

Endeavorers issue a hearty invitation to the general public to go with them to their convention. They offer the cheap railroad rate that has been granted them, and the local transportation manager will take pleasure in securing them board in the locality where the Kentucky delegation will be placed, which is near the Woodland Avenue Presbyterian church in East Nashville, in one of the most pleasant neighborhoods of the city. But as the great endowment, they offer to them, full privilege of the sessions of the greatest convention the world has ever witnessed. The program insures a magnificent success for every session. The many well known men whose names appear thereon, will tend to make it profitable to travel half around the world to attend the convention, as indeed, many will do.

Board at Nashville, in the delightful home, where the Kentucky delegation will be quartered, will be ridiculously cheap. Care will be taken to please every one in homes that will be congenial to them, and everything will be done to make it profitable, inexpensive and pleasant to those who go.

A. D. Wallis, the local transportation manager, will give any information desired by those expecting to go.

Army Getting too Big to Handle.

Chattanooga, June 23.—(Special.)—The indications are that the army here will reach 60,000 in ten days; 2500 arrived yesterday and to-day.

Three New Deputies Named.

Collector Pranks has created three more deputy collectorship districts in the Second Kentucky collection district, and has appointed deputy collectors, says The Owensboro Messenger:

The headquarters of the new divisions are Princeton, Russellville and Leitchfield, and the appointee for Princeton is E. W. Hubbard, and for Russellville is L. J. Warden, of Bowling Green. Warden and Hubbard were appointed Tuesday, and Bion Jolly, of Breckenridge county, will be appointed to the Leitchfield place. The salary of each new deputy is \$1,000 a year.

These deputyships were created in order to afford a sufficient force to collect the taxes under the new revenue law. How long these new divisions will exist is not known. Their creation was authorized by the Washington authorities, and they will no doubt be continued as long as the demand for them render it necessary.

Hubbard is a Princeton lawyer, and Warden was a gauger under Collector Feland. Jolly is a well known Republican of Breckenridge county.

Wheat Threshing Begins.

The fine weather this week has started the wheat threshing and from now on it will proceed with a rush. Almost without an exception the reports coming in are disappointing. The crop is by no means up to the estimates made before harvest. In fact it will be a short crop. The rust prevented the heads from filling out.
